

Presenting the SLP99V Gas Furnace.

More efficient than anything the industry has ever seen, this premier furnace boasts an efficiency rating of up to 99%—that means it essentially converts every last bit of energy it uses into heating the home. And not only is the SLP99V part of the Dave Lennox $Signature^{\circledast}$ Collection, it's part of the Ultimate Comfort System $^{\text{TM}}$, which combines the best of everything Lennox has to offer to create an unprecedented whole-home comfort system.

The quietest and most efficient furnace available.

EFFICIENCY

Efficient is an understatement.

99%
AFUE means it essentially converts every last bit of energy into heating the home.

Annual Fuel Utilization Efficiency measures how efficiently your furnace uses fuel. The higher the AFUE, the more energy-efficient it is.

PRECISE CONTROL

Precision Makes Perfect

Precise Comfort® technology finelytunes and adjusts heating output in tiny increments, perfectly matching your energy use with your comfort, making it the highest-efficiency, variable-capacity furnace available.

VARIABLE CAPACITY / SLP99V

Unit runs at low most of the time, using only the amount of energy needed to meet comfort needs.

SINGLE STAGE CAPACITY / OTHER FURNACES

Unit is either on or off, creating wide temperature swings.

COMMUNICATING

Smarter together

Unlock a world of connectivity by pairing this unit with the Lennox S40 Smart Thermostat. It's the command center for a fully communicating home comfort system, with the incredible ability to monitor sensors throughout your home and in all your equipment. From detecting air pollutants and customizing comfort by room to providing maintenance and service reminders, it will even automatically alert you if your system goes out of tune and allow you to remotely share diagnostics with your local Lennox dealer.

BEYOND QUIET

Degrees, not decibels

Even with all of its impressive power, this furnace is the quietest you can buy and has been engineered to run at variable speed to drastically minimize the sound of air kicking on or off inside the home.
